

Sepehr Kahvand

M.Eng in Mechanical Engineering | Mechanical Designer | CSWA | GD&T & Tolerance Design

Email: kahvandsepehr@gmail.com | Phone: 416-845-6397 | LinkedIn: [linkedin.com/in/sepehrkahvand](https://www.linkedin.com/in/sepehrkahvand)

SUMMARY

Detail-oriented Mechanical Designer with 4+ years of experience in mechanical drafting, production tooling, and manufacturing support within high-volume automotive environments. SolidWorks CSWA-certified, with strong proficiency in 3D modeling, 2D drawings, GD&T (ASME Y14.5), and DFM principles for custom assemblies, jigs, fixtures, and tooling. Hands-on background in CNC lathe operation, quality inspection, 5S, and adherence to ISO 9001 and IATF 16949 standards. Recognized for precision, problem-solving ability, and effective communication in fast-paced, cross-functional settings.

RELATED PROFESSIONAL EXPERIENCES

Linamar Corporation (*Comtech Mfg.*)

❖ **Computer Numerical Control Machine Operator** – Permanent Full-time

Aug 2025 – Present

- Operate **CNC lathe machines** to manufacture transmission cover plates in a **fast-paced, high-volume production environment**
- Perform **tool insert changes, machine adjustments, and offsets** to ensure parts meet nominal dimensions and quality specifications
- Conduct **5S tasks** at the end of each shift in alignment with company policies and **IATF 16949 requirements**
- Inspect machined parts every 2 hours using **Mueller gauge, height gauge, and Go/No-Go gauges**, completing **Operator Data Sheets** for QA documentation
- Identify and report **non-conforming products**, tag defective parts, and halt production until approval from supervisors or team leaders
- **Improved production output by 47% by analyzing the automation workflow and collaborating with the program manager and automation supervisor to optimize the logic of the automated system**

University of Guelph

❖ **Teaching Assistant of the course “ENGG*4490 Sampled Data Control Design”** – Contract Part-time

Jan 2025 – Apr 2025

- Facilitated lab experiments on Coupled-Tanks and Magnetic Levitation systems, supporting applied learning in digital control systems
- Evaluated lab reports and provided constructive technical feedback to enhance students' analytical skills and engineering communication
- Assisted students in implementing digital controllers using MATLAB/Simulink, helping them bridge theoretical concepts with real-time system behavior
- **Improved student lab performance and comprehension by providing tailored guidance and practical troubleshooting, contributing to a 10% increase in average lab grades**

Faraz Sanat Engineering Co.

❖ **Mechanical Designer** – Permanent Full-time

Apr 2020 – Apr 2024

- Designed mechanical subassemblies, custom jigs, and production tooling using **SolidWorks**
- Applied **GD&T** and drafting standards (ASME Y14.5) to ensure clarity and accuracy in fabrication drawings
- Generated and maintained accurate **bills of materials (BOMs)** and drawing packages for internal and supplier use
- Supported design modifications and collaborated with engineers and production staff to resolve **fitment and manufacturability issues**
- Assisted in the preparation of prototypes and followed up on changes during the validation phase of new products

- Participated in drawing reviews and incorporated feedback to align designs with production and assembly requirements
- **Led tooling and fixture design improvements through detailed 3D modeling and GD&T application, collaborating with engineers and production teams to achieve 2.7% production line efficiency increase, reduced assembly time, and lower manufacturing errors—delivering estimated annual savings of \$185,000**

EDUCATION

- Master of Engineering: Mechanical Engineering
University of Guelph, Canada | CGPA: 92/100 | **Graduated with Top Academic Standing** May 2024 – Apr 2025
- Bachelor of Science: Mechanical Engineering (Solid Mechanics and Design)
University of Guilan, Iran Sep 2007 – May 2012

CERTIFICATIONS

- **Certified SOLIDWORKS Design Associate**
Dassault Systèmes | Completed: April 12, 2026
- **Geometric Dimensioning & Tolerancing: Advanced concepts**
Udemy | Completed: April 5, 2026
- **Worker Health & Safety Awareness – Ontario Regulation 297/13**
University of Guelph | Completed: January 9, 2025
- **WHMIS 2024 – Workplace Hazardous Materials Information System**
University of Guelph | Completed: June 26, 2024
- **Internal Quality Auditor – ISO 9001:2015 (Manufacturing Focus)**
GLIS Training Solutions (Authorized INSO Partner) | Completed: 2020

SKILLS

Technical Skills:

- | | | | |
|-------------------------------|---------------------|---------------------|---------------------|
| • Computer-Aided Design (CAD) | • SolidWorks | • AutoCAD | • Autodesk Inventor |
| • GD&T (ASME Y14.5) | • BOM Documentation | • Safety Practices | • Tolerance Design |
| • ISO 9001:2015 | • IATF 16949:2016 | • CNC lathe machine | • Microsoft Excel |

Professional Competencies:

- | | | | |
|-------------------|-----------------------|-----------------------|-------------------|
| • Teamwork | • Communication | • Adaptability | • Time Management |
| • Problem Solving | • Analytical Thinking | • Attention to Detail | |

LANGUAGES

- Persian – Native
- English – Professional proficiency (CELPPI Overall: 9.0)
